

PRIDE

MOUNTAIN VINEYARDS

What to Expect from Your Tasting Experience

As always, you should expect a great fun-filled experience of tasting our wines in a beautiful setting while making what we hope will be lifelong connections with your host. In order to have this experience while being safe from the COVID-19 virus, we are implementing new procedures for your safety. Here is what you can expect from your visit to Pride Mountain Vineyards:

- Your tasting experience will be 100% private and your party will not overlap with any other guests.
- Your host will wear a cloth mask and maintain proper social distancing throughout your visit. We ask that you wear a mask when you arrive, however, as all tastings are private, you may remove it for the remainder of your visit should you choose. Our staff members will verify that they are free of COVID-19 symptoms before coming to work each day and we are all required to have regular COVID-19 PCR nasal swab tests.
- All members of your group will be screened, in a friendly and polite way, for COVID-19 symptoms prior to the start of a tasting. We will then ask you to thoroughly wash your hands at a sanitary handwashing station before beginning your tasting. Hand sanitizer will be available throughout your visit.
- All glasses and decanters will be sanitized between each use in our commercial dishwashers which heat the water to 190 degrees F. All surfaces you may come in contact with will be wiped down with ethanol before and after your visit.

Our goal is to keep you safe while you are having a fantastic time connecting with your host, enjoying our wines and exploring the mountaintop.

Thank you, we're looking forward to your visit!
